

# Pipeline Replacement Project

Project map, affected streets highlighted in red

## City affected - Norfolk

### Streets affected

Avenue E	Kennedy St
Avenue F	Kittrell St
Avenue G	Myers Rd
Ceaderwood Ct	N Gate Dr
Chesapeake Blvd	N Rosemont Dr
Clements Ave	North ST
E Tanners Creek Dr	Northgate Dr
Evelyn T Butts Ave	Oakmont Dr
Johnstons Rd	Sewells Point Rd
Joyner St	W Tanners Creek Dr
Kane St	

### Project scope

- Installation of: 316 Services
- 16,401' of 2" plastic
  - 3,292' of 4" plastic
  - 1,924' of 6" plastic

### Our commitment

We understand your time is valuable, so we take great care in implementing construction practices that limit disturbances to homeowners and businesses. We appreciate your patience and understanding as we work to complete this important work.

## Kennedy SAVE

Virginia Natural Gas provides safe and reliable natural gas service to more than 300,000 customers across southeastern Virginia. To ensure that safety and reliability are maintained, we have already made significant enhancements to portions of our natural gas distribution system and we plan to continue by replacing older, aging underground infrastructure with new, more modern pipes in coming years.

The work in your neighborhood is part of the company's natural gas infrastructure modernization program known as SAVE (Steps in Advancing Virginia's Energy Plan). This program allows us to make necessary upgrades to our natural gas pipeline system while supporting the local economy by providing jobs and reducing emissions.

As part of this project, we will replace aging mains and services, which may have developed leaks or become damaged over time due to road projects or age. The older pipe will be replaced with new polyethylene plastic that is less expensive to maintain and more durable. Perhaps best of all, we're ensuring families and business owners have ready access to America's most abundant, environmentally friendly fuel ... today and tomorrow.
