## Complete our FREE online home energy audit

Take the first step toward creating a more energy-efficient home by completing our FREE online home energy audit. The survey takes as little as 7 minutes to complete and can help save you money on your energy bills. (Audits can be taken once per program year.)

## Request your FREE energy-savings kit

Just login to our **Home Energy Analysis Portal** to get started, and upon completion, you'll receive a comprehensive report with personalized recommendations for saving energy in your home. Based on your report recommendations, you can request to receive one of these three free, easy-to-install energy-savings kits by mail.

Let us help you keep your 2025 New Year's resolution to save energy and money!

# Start the new year off with savings!

Take advantage of the rebates and resources available through our **Energy Efficiency Program** (EEP) to make your home more energy efficient and save money on your energy bills — especially during the cold months of winter.

## Rebates

Our rebates are new and improved this year, including money back on high-efficiency tankless water heaters!

## Audit

Take our free and quick online home energy audit to learn ways to conserve energy in your home and request a free energy-savings kit.

## Home Energy Analysis Portal

The EEP Home Energy Analysis Portal is your one-stop shop to help monitor your home's energy use.

Learn more at [virginiaturalgas.com/energyefficiency](http://virginiaturalgas.com/energyefficiency).

## ENERGY-SAVING

# TIPS AND TOOLS YOU CAN USE

Cold weather is here. Follow these energy-saving tips to help save money on your energy bills this winter.

- Install a programmable thermostat.
- Tune up and clean your heating system/furnace.
- Improve your home's insulation by sealing any air leaks around doors and windows.
- Upgrade your old heating equipment using the rebates available through our Energy Efficiency Program.
