

Chesapeake Operations Headquarters

Virginia Natural Gas (VNG) is excited to announce the construction of our new Operations Headquarters at 401 Clearfield Avenue in Chesapeake. This significant investment of approximately \$50 million will boost local tax revenue from real estate and personal property taxes, benefiting the City of Chesapeake. The new headquarters will also become home to around 150 team members currently based in Chesapeake and Virginia Beach. This project complements our Corporate Headquarters in Virginia Beach, furthering our commitment to the region.

We are proud to have partnered with local elected officials, staff, businesses and residents in nearby communities on this initiative. We remain dedicated to being an excellent neighbor to the families, schools and businesses in this corridor.

The first phase of sitework is set to begin in March 2025, with the next phase expected to start this summer. We anticipate completing the project by late 2026 or early 2027. For more information on the project, please visit virginianaturalgas.com/workinyourneighborhood.
